

Scientific Communities in the Literature Sample

Inductive qualitative coding based on titles and keywords

Scope and method

This report classifies 250 records from the uploaded CSV file. Only the columns **title** and **keywords** were used to derive thematic communities. The categories are therefore content-based descriptors of the literature sample, not mutually exclusive disciplinary identities of the authors or journals.

Coding procedure: titles and keywords were combined, recurring concepts were inspected through keyword frequencies and topic-pattern exploration, and then consolidated into interpretable community categories. Each record was assigned one primary category using a rule-based priority order; many records can still reasonably belong to several communities.

Top recurring keywords

Keyword	Count
higher education	19
covid-19	10
stem education	10
motivation	8
assessment	7
virtual reality	7
inclusive education	7
artificial intelligence	6
education	6
learning analytics	6
systematic review	6
children	5

Category overview

*Matched records are non-exclusive: a title/keyword set can signal several communities. Primary-coded records use one dominant category per paper.

Community category	Matched	Primary
Assessment, Psychometrics and Program Evaluation	81	20
Higher Education, Doctoral Education and Student Success	48	31
Well-Being, Mental Health, Motivation and COVID-19	46	4
STEM, Science and Mathematics Education	43	35
Teacher Education and Professional Development	41	30
Artificial Intelligence, NLP and Academic Integrity	37	37
Educational Technology, Online Learning and Learning Analytics	32	24
Open Science, Open Education and Research Infrastructure	31	10
Inclusive Education, Special Education, Equity and Diversity	31	8
Instructional Design, Project-Based and Experiential Learning	30	5
Other / Cross-Community Education Research	26	26
Curriculum, Textbooks, Literacy and Content Analysis	18	4
Immersive, Game-Based and Simulation Learning	17	16

Community category definitions and examples

Assessment, Psychometrics and Program Evaluation (matched = 81, primary-coded = 20)

Definition: Communities developing, validating, or evaluating instruments, assessments, scales, programs, and measurement approaches in education.

Example from the sample: Development and validation of a rapid and precise online sentence reading efficiency assessment

Example keywords: dyslexia; reading fluency assessment; screening tools; reading fluency and comprehension; progress monitoring; psychometrics

Higher Education, Doctoral Education and Student Success (matched = 48, primary-coded = 31)

Definition: Research on universities and colleges, doctoral training, undergraduate education, transitions into or through higher education, retention, career outcomes, and student success.

Example from the sample: Going to College With a Posse: How Having High School Peers on Campus Supports College Achievement

Example keywords: admissions; equity; first-generation college students; hierarchical linear modeling; higher education; peer interaction/friendship; privilege; psychology; regression analyses; retention; social belonging; social capital; socioeconomic status

Well-Being, Mental Health, Motivation and COVID-19 (matched = 46, primary-coded = 4)

Definition: Studies of learners' or educators' psychological well-being, mental health, motivation, emotions, engagement, resilience, and pandemic-related educational conditions.

Example from the sample: Childrens Stress in the Time of COVID-19: Relationships with School, Social and Recreational Experiences

Example keywords: COVID-19; children; parents; school; stress; relationships; recreation

STEM, Science and Mathematics Education (matched = 43, primary-coded = 35)

Definition: Subject-specific communities in STEM, mathematics, science, biology, engineering, computational thinking, and science-related literacy or communication.

Example from the sample: Testing the impact of two afterschool museum outreach interventions on elementary childrens STEM outcomes: hands-on STEM alone or with STEM stories

Example keywords: informal learning; science, technology, engineering and math (STEM); museum education; family involvement; Expectancy-Value Theory; achievement

Teacher Education and Professional Development (matched = 41, primary-coded = 30)

Definition: Communities studying teachers, pre-service teachers, teacher competencies, professional learning, teacher training, and teaching-related professional development.

Example from the sample: Multidimensional Psychometrics of Teacher Educators Professional Identity: An Initial Validation with Teacher Educators in Southeast Asia

Example keywords: professional identity; teacher educators; psychometrics; Southeast Asia; confirmatory factor analysis

Artificial Intelligence, NLP and Academic Integrity (matched = 37, primary-coded = 37)

Definition: Studies that apply or examine AI, machine learning, natural language processing, generative AI, automated text analysis, or integrity/cheating detection in educational contexts.

Example from the sample: ChatGPT: The End of Online Exam Integrity?

Example keywords: AI impact on education; ChatGPT in exam cheating; multimodal online assessments; GPT-4 vision evaluation; educational integrity; generative AI

Educational Technology, Online Learning and Learning Analytics (matched = 32, primary-coded = 24)

Definition: Communities focused on digital learning environments, online teaching and learning, learner trace data, dashboards, analytics, multimedia learning, and technology-supported learning processes.

Example from the sample: Task-irrelevant visual distractions and mindful self-regulated learning in a low-stakes computer-based assessment

Example keywords: visual distraction; mindful self-regulated learning; computer-based assessment; time pressure; Prolific

Open Science, Open Education and Research Infrastructure (matched = 31, primary-coded = 10)

Definition: Communities concerned with open science, data sharing, preregistration, reproducibility, open education, bibliometrics, systematic reviews, and research infrastructure.

Example from the sample: The importance of copyright and shared norms for credit in Open Educational Resources

Example keywords: open education; Open Educational Resources (OER); copyright; intellectual property (IP); authorship

Inclusive Education, Special Education, Equity and Diversity (matched = 31, primary-coded = 8)

Definition: Research concerned with inclusion, disability, special education, equity, diversity, gender, race/ethnicity, language backgrounds, and unequal access or outcomes.

Example from the sample: Effect of Local Norms on Racial and Ethnic Representation in Gifted Education

Example keywords: assessment; descriptive analysis; diversity; equity; gifted education; hierarchical linear modeling; policy analysis

Instructional Design, Project-Based and Experiential Learning (matched = 30, primary-coded = 5)

Definition: Communities investigating instructional models, project-based and experiential approaches, design-based research, pedagogy, and classroom interventions.

Example from the sample: Comparing community-based reading interventions for middle school children with learning disabilities: possible order effects when emphasizing skills or reasoning

Example keywords: community-based; skill-based; reason-based; reading programs; randomized cross-over design

Other / Cross-Community Education Research (matched = 26, primary-coded = 26)

Definition: Education research items whose title and keywords do not clearly identify one of the above communities, or that cut across several domains without a distinctive thematic signal.

Example from the sample: Perception of Mandarin tones across different phonological contexts by native and tone-naïve listeners

Example keywords: tonal coarticulation; perceptual compensation; Mandarin; lexical tones; L2 speech perception

Curriculum, Textbooks, Literacy and Content Analysis (matched = 18, primary-coded = 4)

Definition: Research on curricula, textbooks, educational materials, literacy, language, writing, and content-focused analyses of learning resources.

Example from the sample: Assessing the correspondence of the basic science curriculum across the different classes with core curriculum specifications in Ebonyi State, Nigeria

Example keywords: Correspondence; basic science curriculum; core curriculum; specifications; secondary schools

Immersive, Game-Based and Simulation Learning (matched = 17, primary-coded = 16)

Definition: Research on VR/AR, metaverse environments, simulations, serious games, and spatial or interactive technologies for learning and training.

Example from the sample: Integrating immersive technologies with STEM education: a systematic review

Example keywords: immersive technologies; virtual reality; augmented reality; STEM education; PICOS approach; PRISMA guidelines; teaching and learning

Interpretive notes

The category set should be read as an analytic map of visible communities in the literature selection. It highlights topic clusters such as AI and educational data science, higher education, STEM education, teacher learning, inclusive education, assessment, well-being, open science, and instructional design.

Because only titles and keywords were used, the coding is conservative: papers with weak or ambiguous signals were placed in the most explicit thematic category or in the cross-community group. Full-text coding could refine boundaries, reveal additional communities, or change assignments for interdisciplinary papers.

Appendix: primary category assignment by record

No.	Title	Primary category
1	Research on the application of ICT in Mathematics education: Bibliometric analysis of scientific bibliography from the Scopus database	STEM, Science and Mathematics Education
2	Making strides in doctoral-level career outcomes reporting: a review of classification and visualization methodologies in graduate education	Higher Education, Doctoral Education and Student Success
3	Risk and Protective Factors of College Students Psychological Well-Being During the COVID-19 Pandemic: Emotional Stability, Mental Health, and Household Resources	Higher Education, Doctoral Education and Student Success
4	A Different Experience in a Different Moment? Teachers Social Media Use Before and During the COVID-19 Pandemic	Teacher Education and Professional Development
5	An Evaluation of the Educational Impact of College Campus Visits: A Randomized Experiment	Higher Education, Doctoral Education and Student Success
6	Understanding Public Sentiment About Educational Reforms: The Next Generation Science Standards on Twitter	Artificial Intelligence, NLP and Academic Integrity
7	Going to College With a Posse: How Having High School Peers on Campus Supports College Achievement	Higher Education, Doctoral Education and Student Success
8	A Model-Based Examination of Scale Effects in Student Evaluations of Teaching	Assessment, Psychometrics and Program Evaluation
9	Content Analysis of Textbooks via Natural Language Processing: Findings on Gender, Race, and Ethnicity in Texas U.S. History Textbooks	Artificial Intelligence, NLP and Academic Integrity
10	Academic Harms of Missing High School and the Accuracy of Current Policy Thresholds: Analysis of Preregistered Administrative Data From a California School District	Open Science, Open Education and Research Infrastructure
11	Effect of Local Norms on Racial and Ethnic Representation in Gifted Education	Inclusive Education, Special Education, Equity and Diversity
12	Taking It to the Next Level: A Field Experiment to Improve Instructor-Student Relationships in College	Artificial Intelligence, NLP and Academic Integrity
13	Characterizing an online, science-based affinity space using topic modelling, diversity indices, and social network analysis	Artificial Intelligence, NLP and Academic Integrity
14	Determine the impact of Emotive Intelligent Spaces on childrens behavioural and cognitive outcomes	Instructional Design, Project-Based and Experiential Learning
15	Are U.S. graduate curricula ready to prepare social data scientists for the AI era?	Artificial Intelligence, NLP and Academic Integrity
16	Testing the impact of two afterschool museum outreach interventions on elementary childrens STEM outcomes: hands-on STEM alone or with STEM stories	STEM, Science and Mathematics Education
17	Towards actionable recommendations for exam preparation using isomorphic problem banks and Explainable Machine Learning	Artificial Intelligence, NLP and Academic Integrity
18	The limited role of expectancy-value beliefs, self-efficacy, and perceived attentional control in predicting online learning outcomes in a general education course	Educational Technology, Online Learning and Learning Analytics
19	Bolstering spatial learning in the primary classroom: identifying the factors underlying primary teachers spatial pedagogical practices	Immersive, Game-Based and Simulation Learning
20	Development and validation of a rapid and precise online sentence reading efficiency assessment	Assessment, Psychometrics and Program Evaluation
21	Perception of Mandarin tones across different phonological contexts by native and tone-naïve listeners	Other / Cross-Community Education Research
22	Revisiting barriers to implementation of bioinformatics into life sciences education	STEM, Science and Mathematics Education
23	Orthographic similarity ratings for English-Spanish cognates from the academic word list	Artificial Intelligence, NLP and Academic Integrity
24	Rates of chronic absenteeism in Montessori and non-Montessori Title 1 schools	Other / Cross-Community Education Research

No.	Title	Primary category
25	Nuclear history, politics, and futures from (A)toms-to(Z)oom: Design and deployment of a remote-learning special-topics course for nuclear engineering education	STEM, Science and Mathematics Education
26	Differential relations among expectancy, task value, engagement, and academic performance: The role of generation status	Higher Education, Doctoral Education and Student Success
27	Exploring the Associations Between MAP Growth and SBA by Demographics	Assessment, Psychometrics and Program Evaluation
28	An Interactive Web Application Helps Students Explore Water Balance Concepts	Other / Cross-Community Education Research
29	Gender Bias Interacts With Instructor Disfluency to Negatively Affect Student Evaluations of Teaching	Inclusive Education, Special Education, Equity and Diversity
30	Factors Influencing Success in Advanced Engineering Mathematics Courses: A Case Study	STEM, Science and Mathematics Education
31	Explainable Automated Essay Scoring: Deep Learning Really Has Pedagogical Value	Artificial Intelligence, NLP and Academic Integrity
32	A Single-Item Measure for Assessing STEM Identity	STEM, Science and Mathematics Education
33	Optimizing Assessment Thresholds of a Computer Gaming Intervention for Students with or at Risk for Mathematics Learning Disabilities: Accuracy and Response Time Trade-Offs	STEM, Science and Mathematics Education
34	Exploring the Power and Possibility of Contextually Relevant Social StudiesLiteracy Integration	Curriculum, Textbooks, Literacy and Content Analysis
35	Detecting Credit-Seeking Behavior with Programmed Instruction Framesets in a Formal Languages Course	Assessment, Psychometrics and Program Evaluation
36	Support without Status: Inequities in StudentAdvisor Relational Dynamics between First-Generation and Continuing-Generation Doctoral Students	STEM, Science and Mathematics Education
37	Childrens Stress in the Time of COVID-19: Relationships with School, Social and Recreational Experiences	Well-Being, Mental Health, Motivation and COVID-19
38	A Brief Parent-Coaching Package for Tiered Language Interventions	Instructional Design, Project-Based and Experiential Learning
39	How Academic Preparation Shapes College Students Own Success and the Success of their Peers in Corequisite Courses: Evidence from Texas	Higher Education, Doctoral Education and Student Success
40	Replicating a Middle-School Belonging Intervention: Evidence from a Randomized Trial Within a New School District	Well-Being, Mental Health, Motivation and COVID-19
41	A primer on gathering and analysing multi-level quantitative evidence for differential student outcomes in higher education	Higher Education, Doctoral Education and Student Success
42	Challenges and feasibility of multimodal LLMs in ER diagram evaluation	Assessment, Psychometrics and Program Evaluation
43	Advocating for a holistic culture of school wellbeingan evaluation of the Well Schools whole school approach to pupil and teacher wellbeing	Teacher Education and Professional Development
44	Facing the fear: a scaffolding approach to teaching life sciences undergraduates R coding	Other / Cross-Community Education Research
45	Facilitating Research-Informed Educational Practice for Inclusion. Survey Findings From 147 Teachers and School Leaders in England	Teacher Education and Professional Development
46	The Cost of Asking: Say that Again?: A Social Capital Theory View Into How Lecture Recording Supports Widening Participation	Educational Technology, Online Learning and Learning Analytics
47	The Rules of Engagement: Student Engagement and Motivation to Improve the Quality of Undergraduate Learning	Higher Education, Doctoral Education and Student Success
48	Can Social Identities Improve Working Students Academic and Social Outcomes? Lessons from Three Studies	Higher Education, Doctoral Education and Student Success
49	E-Learning at-Risk Group Prediction Considering the Semester and Realistic Factors	Educational Technology, Online Learning and Learning Analytics
50	Disadvantaged by chance? Examining the persistence of relative age effects on educational achievement	Other / Cross-Community Education Research
51	The more the better? Comparing two SQD-based learning designs in a teacher training on augmented and virtual reality	Immersive, Game-Based and Simulation Learning
52	One-Year Follow-Up of Two Intensive Supplemental Reading and Mathematics Programs in Swedish Elementary School	STEM, Science and Mathematics Education
53	Occupational health in the educational context: a descriptive and correlational study	Teacher Education and Professional Development
54	Integrating COIL in teacher training: An estimation of learners motivational attitudes	Teacher Education and Professional Development

No.	Title	Primary category
55	Gamifying Renewable Energy: Enhancing Pre-University Students Knowledge and Attitudes Toward Science and Technology	Immersive, Game-Based and Simulation Learning
56	Multidimensional Psychometrics of Teacher Educators Professional Identity: An Initial Validation with Teacher Educators in Southeast Asia	Teacher Education and Professional Development
57	Anthropomorphisms in multimedia learning: Do they facilitate learning in primary school learners?	Educational Technology, Online Learning and Learning Analytics
58	Development and Evaluation of a Custom GPT for the Assessment of Students Designs in a Typography Course	Artificial Intelligence, NLP and Academic Integrity
59	Improving Comprehension: Intelligent Tutoring System Explaining the Domain Rules When Students Break Them	Educational Technology, Online Learning and Learning Analytics
60	Towards Quality Education for All: Integrating EdTech, Mentorship, and Community in Support of SDG 4	STEM, Science and Mathematics Education
61	ChatGPT in Education: Challenges in Local Knowledge Representation of Romanian History and Geography	Artificial Intelligence, NLP and Academic Integrity
62	Validation and proposal of a short version of the Motivated Strategies for Learning Questionnaire (MSLQ) for Portuguese adolescent students	Educational Technology, Online Learning and Learning Analytics
63	Effectiveness and Long-Term Effects of SER + FELIZ (mente): A School-Based Mindfulness Program for Portuguese Elementary Students	Well-Being, Mental Health, Motivation and COVID-19
64	Does Gamification Make a Difference in Programming Education? Evaluating FGPE-Supported Learning Outcomes	Artificial Intelligence, NLP and Academic Integrity
65	Gamification applied with the SOAR study method for time management of university students	Higher Education, Doctoral Education and Student Success
66	The role of competence and autonomy support in instructor motivation: a path model in Norwegian higher education	Higher Education, Doctoral Education and Student Success
67	Assessing the correspondence of the basic science curriculum across the different classes with core curriculum specifications in Ebonyi State, Nigeria	Curriculum, Textbooks, Literacy and Content Analysis
68	Setting Standards With Multiple-Choice Tests: A Preliminary Intended-User Evaluation of SmartStandardSet	Artificial Intelligence, NLP and Academic Integrity
69	A Quantitative Exploration of Two Teachers with Contrasting Emotions: Intra-Individual Process Analyses of Physiology and Interpersonal Behavior	Teacher Education and Professional Development
70	Using music for other subjects in primary schools: empirical survey findings from teachers and a systematic scoping review	Teacher Education and Professional Development
71	The effect of tutoring primary school pupils by university students on STEM interest: a pre-registered randomised controlled trial	STEM, Science and Mathematics Education
72	Studying with GenAI: cross-sectional study on usage patterns, needs, competencies, and ethical perspectives of medical informatics students	Artificial Intelligence, NLP and Academic Integrity
73	Lockdown Learning: Changes in Online Foreign-Language Study Activity and Performance of Dutch Secondary School Students During the COVID-19 Pandemic	Educational Technology, Online Learning and Learning Analytics
74	Non-Symbolic Numerosity and Symbolic Numbers are not Processed Intuitively in Children: Evidence From an Event-Related Potential Study	Other / Cross-Community Education Research
75	Effects of Self-Explaining on Learning and Transfer of Critical Thinking Skills	Instructional Design, Project-Based and Experiential Learning
76	A Person-Centered Approach toward Balanced Gender Identity in Emerging Adults: Associations with Self-Esteem and Attitudes about Education	Inclusive Education, Special Education, Equity and Diversity
77	Nudging Autonomous Learning Behavior: Three Field Experiments	Educational Technology, Online Learning and Learning Analytics
78	COVID-19 Lockdown Education: The Importance of Structure in a Suddenly Changed Learning Environment	Educational Technology, Online Learning and Learning Analytics
79	A Path to Greater Credibility: Large-Scale Collaborative Education Research	Assessment, Psychometrics and Program Evaluation
80	Open Education Science	Open Science, Open Education and Research Infrastructure
81	Assessment mode and inconsistent responding on a mixed-worded scale: evidence from TIMSS 2019 across grades and countries	Assessment, Psychometrics and Program Evaluation
82	Machine learning for post-diploma educational and career guidance: a scoping review in AI-driven decision support systems	Artificial Intelligence, NLP and Academic Integrity
83	Skill-based employment taxonomy in the global IT industry 5.0	STEM, Science and Mathematics Education
84	Mapping the global research on project-based learning: a bibliometric and network analysis (2014-2024)	Open Science, Open Education and Research Infrastructure
85	A systematic review of serious games as tools for STEM education	Immersive, Game-Based and Simulation Learning

No.	Title	Primary category
86	A systematic review and meta-analysis of intervention studies on mathematics and science pedagogical content knowledge	STEM, Science and Mathematics Education
87	Integrating immersive technologies with STEM education: a systematic review	Immersive, Game-Based and Simulation Learning
88	A systematic review of transparency in Lesson Study research: how do we report on the observation and reflection stages?	Teacher Education and Professional Development
89	Socioeconomic Status as a Multidimensional Predictor of Student Achievement in 77 Societies	Inclusive Education, Special Education, Equity and Diversity
90	Academic Integrity in Online Assessment: A Research Review	Artificial Intelligence, NLP and Academic Integrity
91	A Systematic Literature Review of Analytics for Adaptivity Within Educational Video Games	Immersive, Game-Based and Simulation Learning
92	Multiple Texts as a Limiting Factor in Online Learning: Quantifying (Dis-)similarities of Knowledge Networks	Artificial Intelligence, NLP and Academic Integrity
93	Virtual Reality in Critical Care Nursing Education: A Scoping Review	Immersive, Game-Based and Simulation Learning
94	The Impact of Artificial Intelligence on Inclusive Education: A Systematic Review	Artificial Intelligence, NLP and Academic Integrity
95	Contribution of Microlearning in Basic Education: A Systematic Review	Open Science, Open Education and Research Infrastructure
96	A Systematic Literature Review of Integrated STEM Education: Uncovering Consensus and Diversity in Principles and Characteristics	STEM, Science and Mathematics Education
97	Teaching Methodologies of Gross Anatomy Education for Undergraduate Physiotherapy Students: An Updated Scoping Review	Higher Education, Doctoral Education and Student Success
98	A Systematic Scoping Review on Research Focusing on Professionals Attitudes toward School Attendance Problems	Open Science, Open Education and Research Infrastructure
99	Administrative Processes Efficiency Measurement in Higher Education Institutions: A Scoping Review	Higher Education, Doctoral Education and Student Success
100	Effects of a Universal Design for Learning (UDL) Training Course on the Development Teachers Competences: A Systematic Review	Teacher Education and Professional Development
101	Single-Case Writing Interventions for Students with Disorders of Intellectual Development: A Systematic Review and Meta-Analysis	Open Science, Open Education and Research Infrastructure
102	Knowledge based urban development: An approach to innovation districts based on education	STEM, Science and Mathematics Education
103	A Study of the Effects of a Structured Daily Physical Activity Intervention in Schools in Malta	Instructional Design, Project-Based and Experiential Learning
104	The I-Ork project: a technological approach to inclusive music making and therapy	Other / Cross-Community Education Research
105	Inferential Reading Skills in High School: A Study on Comprehension Profiles	Other / Cross-Community Education Research
106	Virtual Bridges: Enhancing Intercultural Competence Among Pre-Service Teachers Through 3D and Video-Conferencing Platforms	Immersive, Game-Based and Simulation Learning
107	Exploring social distance of Iranian students from international students: a preliminary survey study	Higher Education, Doctoral Education and Student Success
108	Childrens Motivation to Learn at Home During the COVID-19 Pandemic: Insights From Indian Parents	Assessment, Psychometrics and Program Evaluation
109	A randomized controlled experiment for comparing face-to-face and online teaching during COVID-19 pandemic	Educational Technology, Online Learning and Learning Analytics
110	From Gaming to Reality: Effectiveness of Skills Transfer from Competitive Sandbox Gaming Environment to Near and Far Contexts	Other / Cross-Community Education Research
111	The Learning Styles Educational Neuromyth: Lack of Agreement Between Teachers Judgments, Self-Assessment, and Students Intelligence	Teacher Education and Professional Development
112	Teachers Attitudes towards Inclusive Education at Greek Secondary Education Schools	Teacher Education and Professional Development
113	Unraveling the relation between representational competence and conceptual knowledge across four samples from two different countries	STEM, Science and Mathematics Education
114	InClass an instrument to assess classroom management in inclusive and special education with a focus on heterogeneous learning groups	Teacher Education and Professional Development
115	The Impact of Performance Goals on Cheating Depends on How Performance Is Evaluated	Artificial Intelligence, NLP and Academic Integrity
116	Challenging the notion of a general disfluency effect: the moderating effect of element-interactivity on perceptual disfluency	Other / Cross-Community Education Research

No.	Title	Primary category
117	How useful are interpretation aids for communicating large-scale assessment results to teachers?	STEM, Science and Mathematics Education
118	Supportive teachers, active students: Is teacher support a promising key to engaging students with and without migration backgrounds?	Teacher Education and Professional Development
119	Do future biology teachers bug out with higher insect-related knowledge and more positive attitudes? A comparison of different education levels	STEM, Science and Mathematics Education
120	Communal and agentic teacher behavior in teacher-child dyads. A new self-report scale based on a circumplex approach	Educational Technology, Online Learning and Learning Analytics
121	Using the thin slices technique to assess interactional quality in early childhood education and care settings	Assessment, Psychometrics and Program Evaluation
122	Early cognitive predictors of spelling and reading in German-speaking children	Other / Cross-Community Education Research
123	A question of feedback? Studying effects of academic performance and teacher feedback on primary school students social acceptance in an experimental setting	Teacher Education and Professional Development
124	The impact of social comparison processes on self-evaluation of performance, self-concept, and task interest	Assessment, Psychometrics and Program Evaluation
125	Teachers trust educational science - Especially if it confirms their beliefs	Teacher Education and Professional Development
126	Simulating computerized adaptive testing in special education based on inclusive progress monitoring data	Educational Technology, Online Learning and Learning Analytics
127	Diagnostic argumentation in teacher education: Making the case for justification, disconfirmation, and transparency	Teacher Education and Professional Development
128	Understanding the relationship between perceived stress, academic motivation, and physical activity in college students during the coronavirus pandemic	Higher Education, Doctoral Education and Student Success
129	To use or not to use learning data: A survey study to explain German primary school teachers usage of data from digital learning platforms for purposes of individualization	Educational Technology, Online Learning and Learning Analytics
130	Basic needs support and achievement emotions in daily research of life scientists considering academic positions	Other / Cross-Community Education Research
131	Statistical Power of Piecewise Regression Analyses of Single-Case Experimental Studies Addressing Behavior Problems	Immersive, Game-Based and Simulation Learning
132	Comparing Construction and Study of Concept Maps An Intervention Study on Learning Outcome, Self-Evaluation and Enjoyment Through Training and Learning	STEM, Science and Mathematics Education
133	Minimization of a Short Computer-Based Test in Reading	Educational Technology, Online Learning and Learning Analytics
134	A New Measurement Instrument for Music-Related Argumentative Competence: The MARKO Competency Test and Competency Model	Assessment, Psychometrics and Program Evaluation
135	Empowering Future HR Professionals: A Design-Based Research Approach to Project-Based Learning in Work and Organizational Psychology	Higher Education, Doctoral Education and Student Success
136	Rethinking Professional Development: Development and Evaluation of an Evidence-Based Online PD Course on the Effective Use of Technology in the Classroom	Teacher Education and Professional Development
137	Designing a Digital Flash Reading Test for Data-Based Decisions in Inclusive Classrooms: Duration and Word Length as Difficulty-Generating-Item Characteristics	Educational Technology, Online Learning and Learning Analytics
138	From Research to RetweetsExploring the Role of Educational Twitter (X) Communities in Promoting Science Communication and Evidence-Based Teaching	Artificial Intelligence, NLP and Academic Integrity
139	Group Size and Peer Learning: Peer Discussions in Different Group Size Influence Learning in a Biology Exercise Performed on a Tablet With Stylus	Inclusive Education, Special Education, Equity and Diversity
140	A longitudinal study of interplay between student engagement and self-regulation	Educational Technology, Online Learning and Learning Analytics
141	Using version control to document genuine effort in written assignments: a protocol with examples for universities	Higher Education, Doctoral Education and Student Success
142	Indirect effects of leadership behaviors on departmental performance via organizational learning in Ethiopian public research universities	Higher Education, Doctoral Education and Student Success
143	Perceived Autonomy Support from Peers, Parents, and Physical Education Teachers as Predictors of Physical Activity and Health-Related Quality of Life among AdolescentsA One-Year Longitudinal Study	Teacher Education and Professional Development
144	Sustainability and research in the Colombian-Ecuadorian public higher education system	Higher Education, Doctoral Education and Student Success

No.	Title	Primary category
145	Soft Skills and Employability of Online Graduate Students	Educational Technology, Online Learning and Learning Analytics
146	Educational Impact on Ecuadorian University Students Due to the COVID-19 Context	Higher Education, Doctoral Education and Student Success
147	Professional competencies, motivation, cognitive abilities and personality in pre-service teachers	Teacher Education and Professional Development
148	The influence of metaverse environment design on the quality of experience in virtual reality classes: a comparative study	Educational Technology, Online Learning and Learning Analytics
149	Students acceptance of artificial intelligence eBooks using LCA and SEM: a case study of medical book in China	Artificial Intelligence, NLP and Academic Integrity
150	Empowering college students to select ideal advisors: a text-based recommendation model	Higher Education, Doctoral Education and Student Success
151	HSNMF enables accurate and effective analysis for the college students psychological health education data and student life data	Higher Education, Doctoral Education and Student Success
152	A practical evaluation of online self-assisted previewing architecture on rain classroom for biochemistry lab courses	Artificial Intelligence, NLP and Academic Integrity
153	Mindsets Matter: A Mediation Analysis of the Role of a Technological Growth Mindset in Generative Artificial Intelligence Usage in Higher Education	Artificial Intelligence, NLP and Academic Integrity
154	Using Synchronized Eye Movements to Predict Attention in Online Video Learning	Educational Technology, Online Learning and Learning Analytics
155	Independent Semantic and Syntactic Representations in L2 Mandarin Learners: Evidence from Structural Priming	Other / Cross-Community Education Research
156	Comparing community-based reading interventions for middle school children with learning disabilities: possible order effects when emphasizing skills or reasoning	Instructional Design, Project-Based and Experiential Learning
157	Scarlet Cloak and the Forest Adventure: A Preliminary Study of the Impact of AI on Commonly Used Writing Tools	Artificial Intelligence, NLP and Academic Integrity
158	On the Use of eXplainable Artificial Intelligence to Evaluate School Dropout	Artificial Intelligence, NLP and Academic Integrity
159	n Exploratory Study of Online Job Portal Data of the ICT Sector in Bangladesh: Analysis, Recommendations and Preliminary Implications for ICT Curriculum Reform	Curriculum, Textbooks, Literacy and Content Analysis
160	Effects of Response Format on Psychometric Properties and Fairness of a Matrices Test: Multiple Choice vs. Free Response	Assessment, Psychometrics and Program Evaluation
161	From Gretel to Strudelcity: Empowering Teachers Regarding Generative AI for Enhanced AI Literacy with CollectiveGPT	Artificial Intelligence, NLP and Academic Integrity
162	How useful are interpretation aids for communicating large-scale assessment results to teachers?	Teacher Education and Professional Development
163	Graduate student perceptions of their graduate experience: an informational tool for academic programs and graduate schools	Assessment, Psychometrics and Program Evaluation
164	Psychometric validation and gender invariance analysis of a revised version of the attitudes towards research scale (EACIN-23) in a Chilean university student sample	Higher Education, Doctoral Education and Student Success
165	Antecedents of teachers' professional competencies	Teacher Education and Professional Development
166	Addressing boundary conditions of cognitive and motivational effects of gamified learning	Immersive, Game-Based and Simulation Learning
167	Disentangling objective characteristics of learning situations from subjective perceptions thereof; using an experience sampling method design	Other / Cross-Community Education Research
168	Data Sharing in Education Science	Open Science, Open Education and Research Infrastructure
169	Development and Validation of the Tuebingen Inventory to Measure Teachers' Profession-Specific Value Orientations (TIVO)	Teacher Education and Professional Development
170	The Quantitative Implications of Definitions of Giftedness	Immersive, Game-Based and Simulation Learning
171	A qualitative follow-up study on academic success of non-traditional students	Higher Education, Doctoral Education and Student Success
172	Technical-pedagogical usability of digital inclusive reading support evolving through practice-to-research transfer	Inclusive Education, Special Education, Equity and Diversity
173	Emotional drivers of pedagogy and their place in the motivational process: distinguishing percepts from outcomes	Teacher Education and Professional Development
174	Mindfulness-based interventions and student wellbeing: can digital group meetings enhance app-based training?	Immersive, Game-Based and Simulation Learning

No.	Title	Primary category
175	Cultural adaptation and psychometric validation of the academic progress goals scale for Peruvian university students	Higher Education, Doctoral Education and Student Success
176	A quasi-experimental eye-tracking study investigating the relationship between professional vision and the dispositions for inclusive teaching	Teacher Education and Professional Development
177	How to talk about science in ways that are comprehensible and interesting? Evaluation of an evidence-based science communication training program for graduate students	STEM, Science and Mathematics Education
178	Artificial intelligence in STEM education: a transdisciplinary framework for engagement and innovation	Artificial Intelligence, NLP and Academic Integrity
179	Educational strategies to reduce the gender gap in the self-efficacy of high school students in stem teaching	STEM, Science and Mathematics Education
180	Differential effects of GPT-based tools on comprehension of standardized passages	Artificial Intelligence, NLP and Academic Integrity
181	How you ask matters: evidence-based assessment connecting decentering, reappraisal, and self-reported wellbeing in a post-secondary sample	Assessment, Psychometrics and Program Evaluation
182	Tone superimposition technique in Speech Sciences: a tutorial	Other / Cross-Community Education Research
183	Cohort-based programs facilitate skill development and community building for postdoctoral scholars: a pilot study	Other / Cross-Community Education Research
184	Integrating mathematical modeling into synthetic biology education: a comprehensive approach through webinars and syllabus development	STEM, Science and Mathematics Education
185	Task-irrelevant visual distractions and mindful self-regulated learning in a low-stakes computer-based assessment	Educational Technology, Online Learning and Learning Analytics
186	Databases for STEM success: lessons learned	STEM, Science and Mathematics Education
187	Investigating the variation of intonation contours in Northern Vietnamese tones	Other / Cross-Community Education Research
188	Six factors facilitating teachers' use of research. An experimental factorial survey of educational stakeholders perspectives	Teacher Education and Professional Development
189	Generating mathematical strategies shows evidence of a serial order effect	Higher Education, Doctoral Education and Student Success
190	Retrieval-based concept mapping makes a difference as a retrieval practice activity: a study with high school students	Assessment, Psychometrics and Program Evaluation
191	The role of finger kinematics in the acquisition of number meaning in kindergarten: a pilot study	Other / Cross-Community Education Research
192	Tracking e-reading behavior: uncovering the effects of task context, electronic experience, and motivation	Well-Being, Mental Health, Motivation and COVID-19
193	Embracing the inclusion of societal concepts in biology improves student understanding	STEM, Science and Mathematics Education
194	Teaching beginner-level computational social science: interactive open education resources with learnr and shiny apps	Higher Education, Doctoral Education and Student Success
195	Pupil dilation as cognitive load measure in instructional videos on complex chemical representations	STEM, Science and Mathematics Education
196	Proof-of-concept of feasibility of human-machine peer learning for German noun vocabulary learning	Artificial Intelligence, NLP and Academic Integrity
197	Teachers concerns about inclusive education and the links with teachers attitudes	Teacher Education and Professional Development
198	The importance of copyright and shared norms for credit in Open Educational Resources	Open Science, Open Education and Research Infrastructure
199	Multilevel and empirical reliability estimates of learning growth: A simulation study and empirical illustration	Immersive, Game-Based and Simulation Learning
200	The scientific impotence excuse in education - Disentangling potency and pertinence assessments of educational research	Teacher Education and Professional Development
201	Priming the Arabic dative: Evidence for syntactic abstractness and implicit learning	Other / Cross-Community Education Research
202	Development and Initial Validation of an Admission Test for Bachelor Psychology Studies	Assessment, Psychometrics and Program Evaluation
203	Civic Online Reasoning Among Adults: An Empirical Evaluation of a Prescriptive Theory and Its Correlates	Assessment, Psychometrics and Program Evaluation
204	Mathematical Creativity in Elementary School Children: General Patterns and Effects of an Incubation Break	Other / Cross-Community Education Research
205	On the Bias and Stability of the Results of Comparative Judgment	Assessment, Psychometrics and Program Evaluation

No.	Title	Primary category
206	Developing Self-Efficacy and Behavioral Intentions Among Underrepresented Students in STEM: The Role of Active Learning	STEM, Science and Mathematics Education
207	Self-Regulation Versus Self-Discipline in Predicting Achievement: A Replication Study With Secondary Data	Open Science, Open Education and Research Infrastructure
208	The Bioinformatics Virtual Coordination Network: An Open Community for Collaborative Learning and Training	STEM, Science and Mathematics Education
209	Introducing Databases in Context Through Customizable Visualizations	Artificial Intelligence, NLP and Academic Integrity
210	Quantitative and Qualitative Differences in the Canonical and the Reverse Distance Effect and Their Selective Association With Arithmetic and Mathematical Competencies	Other / Cross-Community Education Research
211	Using Virtual Reality to Assess Reading Fluency in Children	Immersive, Game-Based and Simulation Learning
212	Attitudes Toward Inclusive Education: An Exploration of the Interaction Between Teachers Status and Students Type of Disability Within the French Context	Teacher Education and Professional Development
213	Do Preschoolers Align Their Preferences With Those of a Powerful Individual?	Other / Cross-Community Education Research
214	The Paradox of Help Seeking in the Entropy Mastermind Game	Other / Cross-Community Education Research
215	Statistical Methods in Transdisciplinary Educational Research	Assessment, Psychometrics and Program Evaluation
216	Mandatory Home Education During the COVID-19 Lockdown in the Czech Republic: A Rapid Survey of 1st-9th Graders Parents	Educational Technology, Online Learning and Learning Analytics
217	Impact of Research About the Early Development of Children With Intellectual Disability: A Science Mapping Analysis	Other / Cross-Community Education Research
218	Exploration of the Rate of Forgetting as a Domain-Specific Individual Differences Measure	Educational Technology, Online Learning and Learning Analytics
219	AI-Generated Tailor-Made Pedagogical Picture Books: How Close Are We?	Artificial Intelligence, NLP and Academic Integrity
220	Topic Level Visualization of Student Enrollment Records in a Computer Science Curriculum	Open Science, Open Education and Research Infrastructure
221	CodeContrast: A Contrastive Learning Approach for Generating Coherent Programming Exercises	Artificial Intelligence, NLP and Academic Integrity
222	Are Adolescents with a Wider Vocabulary Faster at Inference Making During Reading? Evidence from Self-Paced Reading	Curriculum, Textbooks, Literacy and Content Analysis
223	Evaluating the Impact of an Educational Intervention Using Project-Based Learning on Postpandemic Recovery in Rural Colombia	Assessment, Psychometrics and Program Evaluation
224	Developing Doctoral Theses in Education: The Role of Systematic Reviews in the Spanish Context	Higher Education, Doctoral Education and Student Success
225	ChatGPT: The End of Online Exam Integrity?	Artificial Intelligence, NLP and Academic Integrity
226	The Role of Visual Representations in Undergraduate Students Learning About Genetic Inheritance	Higher Education, Doctoral Education and Student Success
227	The Visual Science Communication Toolkit: Responding to the Need for Visual Science Communication Training in Undergraduate Life Sciences Education	STEM, Science and Mathematics Education
228	Blue Is for Boys and Pink Is for Girls: How to Break Gender Stereotypes with a Videogame	Immersive, Game-Based and Simulation Learning
229	Measuring Implicit STEM and Math Attitudes in Adolescents Online with the Brief Implicit Association Test	STEM, Science and Mathematics Education
230	Measuring Oral Reading Fluency (ORF) Computer-Based and Paper-Based: Examining the Mode Effect in Reading Accuracy and Reading Fluency	Educational Technology, Online Learning and Learning Analytics
231	Ensuring Academic Integrity and Trust in Online Learning Environments: A Longitudinal Study of an AI-Centered Proctoring System in Tertiary Educational Institutions	Artificial Intelligence, NLP and Academic Integrity
232	Technology-Enhanced Learning, Data Sharing, and Machine Learning Challenges in South African Education	Artificial Intelligence, NLP and Academic Integrity
233	Lossless Encoding of Mental Cutting Test Scenarios for Efficient Development of Spatial Skills	Immersive, Game-Based and Simulation Learning
234	Maintaining Academic Integrity in Programming: Locality-Sensitive Hashing and Recommendations	Artificial Intelligence, NLP and Academic Integrity
235	Visibility of Scientific Production and Digital Identity of Researchers through Digital Technologies	Other / Cross-Community Education Research

No.	Title	Primary category
236	Leveraging H3Africa Scholarly Publications for Technology-Enhanced Personalized Bioinformatics Education	STEM, Science and Mathematics Education
237	Relations between the Home Learning Environment and the Literacy and Mathematics Skills of Eight-Year-Old Canadian Children	STEM, Science and Mathematics Education
238	Controlling-Supportive Homework Help Partially Explains the Relation between Parents' Math Anxiety and Children's Math Achievement	STEM, Science and Mathematics Education
239	Automatized Evaluation of Students' CAD Models	STEM, Science and Mathematics Education
240	Concept Mapping in Magnetism and Electrostatics: Core Concepts and Development over Time	STEM, Science and Mathematics Education
241	How Do Individual-Difference Variables Affect Adolescent Learners' L2 English Speaking Development? A Microgenetic Study	Other / Cross-Community Education Research
242	A Primer on MIMIC Models and Critical Quantitative Methods to Increase Their Use	Inclusive Education, Special Education, Equity and Diversity
243	Metropolitan; Urban; and Rural Regions: How Regional Differences Affect Elementary School Students in Germany	Artificial Intelligence, NLP and Academic Integrity
244	Where Are the English Learners and Students With Disabilities in Gifted Education?	Inclusive Education, Special Education, Equity and Diversity
245	The Impacts of Three Educational Technologies on Algebraic Understanding in the Context of COVID-19	STEM, Science and Mathematics Education
246	Mind the Gap: How Teachers' Professional Development Preferences Relate to Scientific Recommendations	Teacher Education and Professional Development
247	Promoting collaborative reflection to foster interprofessional collaboration skills: Putting laboratory findings to the test in the field	Higher Education, Doctoral Education and Student Success
248	Automatic feedback and assessment of team-coding assignments in a DevOps context	Artificial Intelligence, NLP and Academic Integrity
249	Exploring predictors of instructional resilience during emergency remote teaching in higher education	Higher Education, Doctoral Education and Student Success
250	Impact of using learning analytics in asynchronous online discussions in higher education	Educational Technology, Online Learning and Learning Analytics
